Light skin - Wikipedia
Light skin is a human skin color, which has a base level of eumelanin pigmentation that has adapted to environments of low UV radiation. Light skin is most commonly found amongst the native populations of Europe and Northeast Asia as measured through skin reflectance. People with light skin pigmentation are often
referred to as "white" or "fair", although these usages can be ambiguous in some cases.

Coffee - Wikipedia
Coffee is a brewed drink prepared from roasted coffee beans, the seeds of berries from certain Coffea species. From the coffee fruit, the seeds are separated to produce a stable, raw product: unroasted green coffee. The seeds are then roasted, a process which transforms them into a consumable product: roasted coffee, which is ground into fine particles that are typically steeped in hot water.
